- (ii) In cases where required number of CCEs could not be conducted due to non-availability of adequate cropped area, the yield estimate for such IUs will be made by adopting the yield of next higher unit i.e. block. If the area in the block is also inadequate, the yield of the district will be adopted. If the area in the district is also inadequate, the yield of the State average will be adopted.

- (iii) In case of 'On Account Payment of claims due to Mid-Season Adversity', the State Government will issue damage notification keeping in view the likely loss caused to the crops, rainfall data, crop condition reports by field officials, media reports etc.

- (i) The assessment of yield loss will be on individual plot basis in case of occurrence of cyclone, cyclonic rains and unseasonal rains resulting in damage to harvested crop lying in the field in 'cut and spread' condition, up to a maximum period of 14 days from harvesting.
 - (ii) The Implementing Agency will appoint Loss Assessors in sufficient number having the qualifications provided in OGs, for assessment of losses due to the operations of post-harvest losses.
 - (iii) The loss will be jointly assessed by a team comprising of the Block Agriculture Officer, Loss Assessors and the concerned farmer.

Percentage of loss would be arrived at by requisite percentage of sample survey (as decided by the Committee of SDO (Civil), Deputy Director Agriculture, Tehsildar concerned and a representative of the Insurance Company) of affected area.
